

BlueDiver Instrument

Catalog number: BLUEDIVER 1.0

Storage: 2-8 °C

Producer: D-tek s.a.

- Simple, smart and small sized device for complete automation of the immunoblot method
- Scanning device in combination with user friendly and intuitive evaluation software
- Space-saving – small sized and compact instrument without a need for extra devices
- No risk of contamination – no pumps, inlet hoses, handling with liquid reagents, “dead” volumes; disposable cartridges are ready to use
- High flexibility – it is possible to analyze up to 24 various strips at the same time - compatibility of the whole product range of D-tek and TestLine intended for automation
- Easy to use and short hands on time – simply insert the test strips, disposable reagent cartridges, patient samples and then follow the instructions on the touchscreen
- High reliability – compatibility of strips and reagents automatically checked using the integrated barcode reader
- Extremely short analysis time – through innovative patented process
