

EN

Company Overview & Products

Diagnostic kits are intended for professional use in the laboratory.

About the company

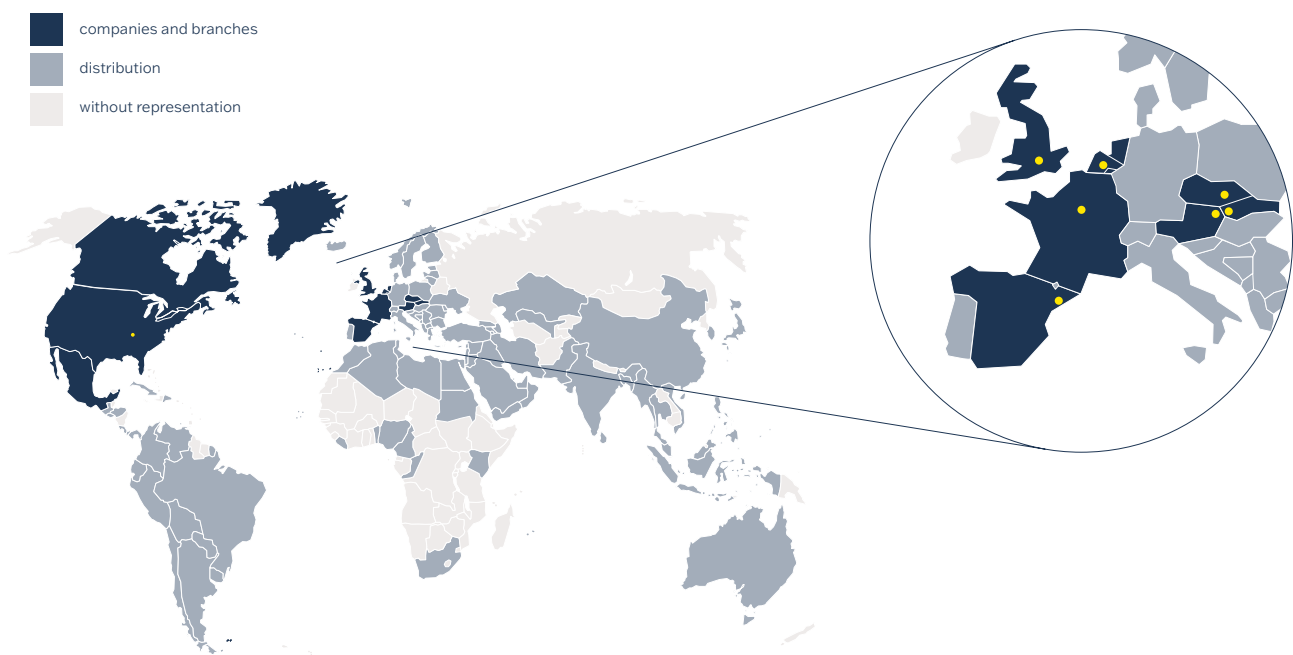

Established in 1993, TestLine has been dedicated to the development and manufacture of high-quality diagnostic products for both human and veterinary use. The company is now proud to be the major manufacturer and distributor of clinical diagnostics in the Czech Republic and Slovakia. TestLine was incorporated into the BioVendor group in 2012. Our mission is to lead with new innovations using the traditional as well as most advanced and modern technologies while sustaining the highest diagnostic standards.

Company highlights

- Approximately 150 employees, including more than 45 members of research and development and 41 university graduates
- Holder of ISO 9001, ISO 13485 certificates – certified by Lloyd's Register Quality Assurance
- All human diagnostic kits are CE marked, approved and registered by the Ministry of Health of the Czech Republic (IVD), the company is also preparing to comply with upcoming IVDR regulations
- TestLine complies with the GMP regulations and regularly participates in External Quality Assessments

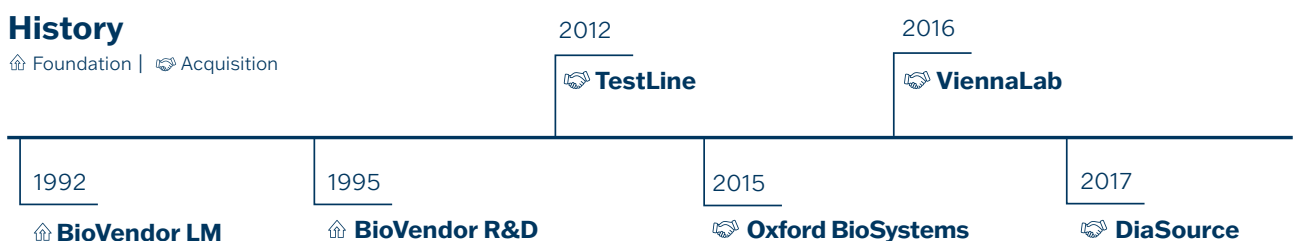

BioVendor Group

At BioVendor Group, we search for ways to provide reliable and affordable laboratory results to physicians and patients around the world.

History

🏠 Foundation | 🤝 Acquisition

Technologies & Products

TestLine provides a complete package of customer services. These include sales of diagnostic kits, automated instruments and expert support so that our customers will never be on their own. Following methods and platforms are available in our portfolio:

CLIA

The attractive portfolio of innovative and established diagnostic parameters provides a comprehensive chemiluminescence system for any diagnostic laboratory.

Exceptional flexibility combined with reliability resulting in a cost-effective solution for the quantitative measurement of antigens and antibodies in biological fluids.

*products are presented separately in a CLIA leaflet

ELISA

The most widespread and cost effective diagnostic screening method. TestLine commits itself to provide the highest quality in both diagnostic performance and ease of use.

Majority of TestLine EIA kits are also available in the **Agility® SmartKits®** gold format that enables a full automation of the assay from sample preparation to final results.

Microblot-Array

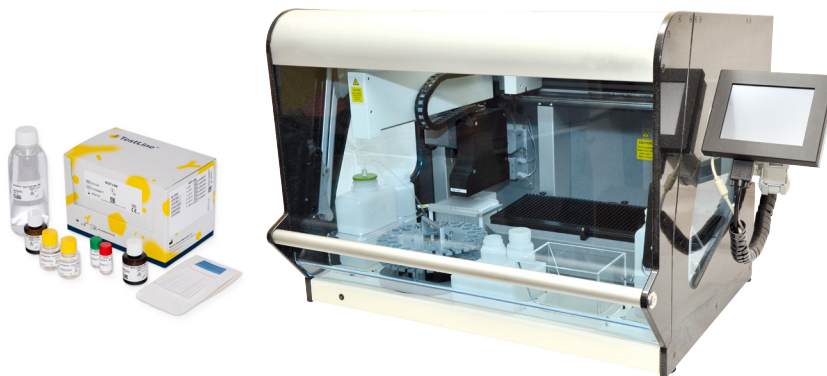

Both single and multiplex technology that is offering extreme efficiency based on high precision spotting and detection using a sensitive colorimetric array reader.

Through its single well capacity, the Microblot-Array enables comprehensive opportunities that shall be used within all of the available ranges.

IMMUNOBLOT

Semi-quantitative strip test easily performed manually in any laboratory. However, advanced solutions such as the **Roboblott** along with the TestLine Immunoblot software enable fully automated processing.

The TestLine infectious diseases BLOT-LINE technologies are also available on the **BlueDiver/Neptune** platform, a perfect mid-sized and completely automated cartridge-based analyzer.

ELISA KITS FOR DIAGNOSTIC OF INFECTIOUS DISEASES

(Kits are also available as SmartKits® for Agility®)

GIG096	EIA Gliadin IgG	96	wells
GDA096	EIA Gliadin DA IgA	96	wells
GDG096	EIA Gliadin DA IgG	96	wells
MiA096	EIA Milk IgA	96	wells
MiG096	EIA Milk IgG	96	wells
MiM096	EIA Milk IgM	96	wells
tTA096	EIA Transglutaminase IgA	96	wells
tTG096	EIA Transglutaminase IgG	96	wells
PCG096	EIA PCP IgG	96	wells

OTHER KITS FOR IMMUNOLOGY

Cat. No.	Product	Number	Units
CIK240	TA Immunocomplex	240	tests
CIKb00	TA bulk Immunocomplex	1500	tests

TESTS FOR BACTERIOLOGY

<u>Cat. No.</u>	<u>Product</u>	<u>Number</u>	<u>Units</u>
Hs0050	HIPPUstrip (Dg. test for hippurate hydrolase activity of microorganisms)	50	tests
Is0100	INDOXYLstrip (Dg. test for detection of acetatesterase activity of <i>B. catarrhalis</i>)	100	tests
Os0100	OXIstrip (Dg. test for detection of bacterial cytochromoxidase activity)	100	tests
Ps0050	PYRstrip (Dg. test for detection of pyrrolidonylpeptidase activity of <i>S. pyogenes</i>)	50	tests
Ts0300	TRIBUstrip (Dg. test for differentiation between Branhamella and Neisseria)	300	tests
Ut0050	UREASAtest 50 (Dg. medium for detection of urease activity of <i>H. pylori</i>)	50	tests
Utb100	UREASAtest bulk (Dg. medium for detection of urease activity of <i>H. pylori</i>)	100	tests
LM0020	LEPTOSPIRA – MEDIUM (Korthof's medium germs free)	20 x 3	ml
LMb100	LEPTOSPIRA – MEDIUM BULK (Korthof's medium – bulk germs free)	100	ml
LMm020	LEPTOSPIRA – MEDIUM MEDICATED (Korthof's medium medicated - germs free)	20 x 3	ml

COMPONENTS FOR IMMUNODIAGNOSTIC KITS

<u>Cat. No.</u>	<u>Product</u>	<u>Number</u>	<u>Units</u>
RFs002	RF-sorb	2	ml
RFs010	RF-sorb	10	ml
TMB100	TMB-Complete	100	ml
TMB0L1	TMB-Complete	1 000	ml
zr0100	Stopping solution TL	100	ml
zr00L1	Stopping solution TL	1 000	ml

PREPARATIONS FOR MICROSCOPY

<u>Cat. No.</u>	<u>Product</u>	<u>Number</u>	<u>Units</u>
Gir0L1	GIEMSA – ready (working strenght)	1000	ml
Gi00L1	GIEMSA – 10x conc. solution	1000	ml

Cat. No.	Product	Number	Units
rp0090	Dilution buffer for GIEMSA' s staining sol.	90	ml
Gs0000	GRAM – complete set of solutions	1	set
kv0200	Crystal violet solution	200	ml
sa0800	Ammonium oxalate solution	800	ml
lr00L1	Lugol's solution	1000	ml
kf0100	Carbol-fuchsin solution (10x conc.)	100	ml

PREPARATIONS FOR TISSUE CULTURE

Cat. No.	Product	Number	Units
Sb0120	Sodium bicarbonate 7,5%	12 x 10	ml

VETERINARY IMMUNODIAGNOSTIC KITS

Cat. No.	Product	Number	Units
AD0480	AD Ab ELISA (Aujeszky's disease)	480	wells
BHd480	BHV-1 Ab ELISA (Infectious bovine rhinotracheitis – IBR)	480	wells
IBR192	IBR-gB ELISA (Infectious bovine rhinotracheitis – IBR – detection of gB antibodies -blocking ELISA)	192	wells
BVD480	BVD-MD IgG ELISA (Bovine Viral Diarrhoea-Mucosal Disease)	480	wells
EBL480	EBLV Ab ELISA (Enzootic bovine leukosis)	480	wells
IPN096	IPNV Ag ELISA (Infectious pancreatitis necrosis of salmonids)	96	wells
SVC096	SVCV Ag ELISA (Spring viraemia of carp)	96	wells
VHS096	VHSV Ag ELISA (Viral haemorrhagic septicaemia of salmonids)	96	wells
DBGM96	Dog EIA Borrelia IgG/IgM (detection of IgG and IgM antibodies in canine serum)	48/48	wells
PTB480	PTB Ab ELISA 480	480	wells
